Dear Sir:

I am currently preparing a book on the assassination of President Kennedy. This book will contain a reconstruction of the assassination and a consideration of events since the act, including the trial of Clay Shaw.

If you have a theory as to how the assassination occurred, where the shots came from, what damage they inflicted, etc., I would like to know it.

Now that the Clay Shaw trial is over, do you know if any other action is being taken to discover the truth?

Yours truly,

John Davis

John Davis.
